OLI's paramount objective is to establish a mutually beneficial relationship with our customers, who are a key influence in shaping the company's business model. Meeting the customers' needs is a priority, achieving a trustful partnership is the reward.

By supplying competitive high quality products for wide-ranging applications, OLI combines performance and reliability by adapting to the ever-changing market. A strong believer in innovation, OLI is constantly striving to be ahead of the curve.

Acquisition by Wamgroup, known for its stature in the bulk solids handling & processing industry.

The opening of affiliates across the globe was the next step, the first foreign subsidiary being set up in China, while more branches in other continents soon followed.

OLI has been committed to delivering market-oriented products since its foundation in 1961.

Specialising originally in immersion vibrators for concrete consolidation, the 1980s saw the company begin production of electric and pneumatic external vibrators, which would go on to become OLI's main products and would account for 70% of the sales by the early 1990s.

OLI has been head-quartered in Modena, northern Italy.

OLI is the world's top selling company of vibrating motors.

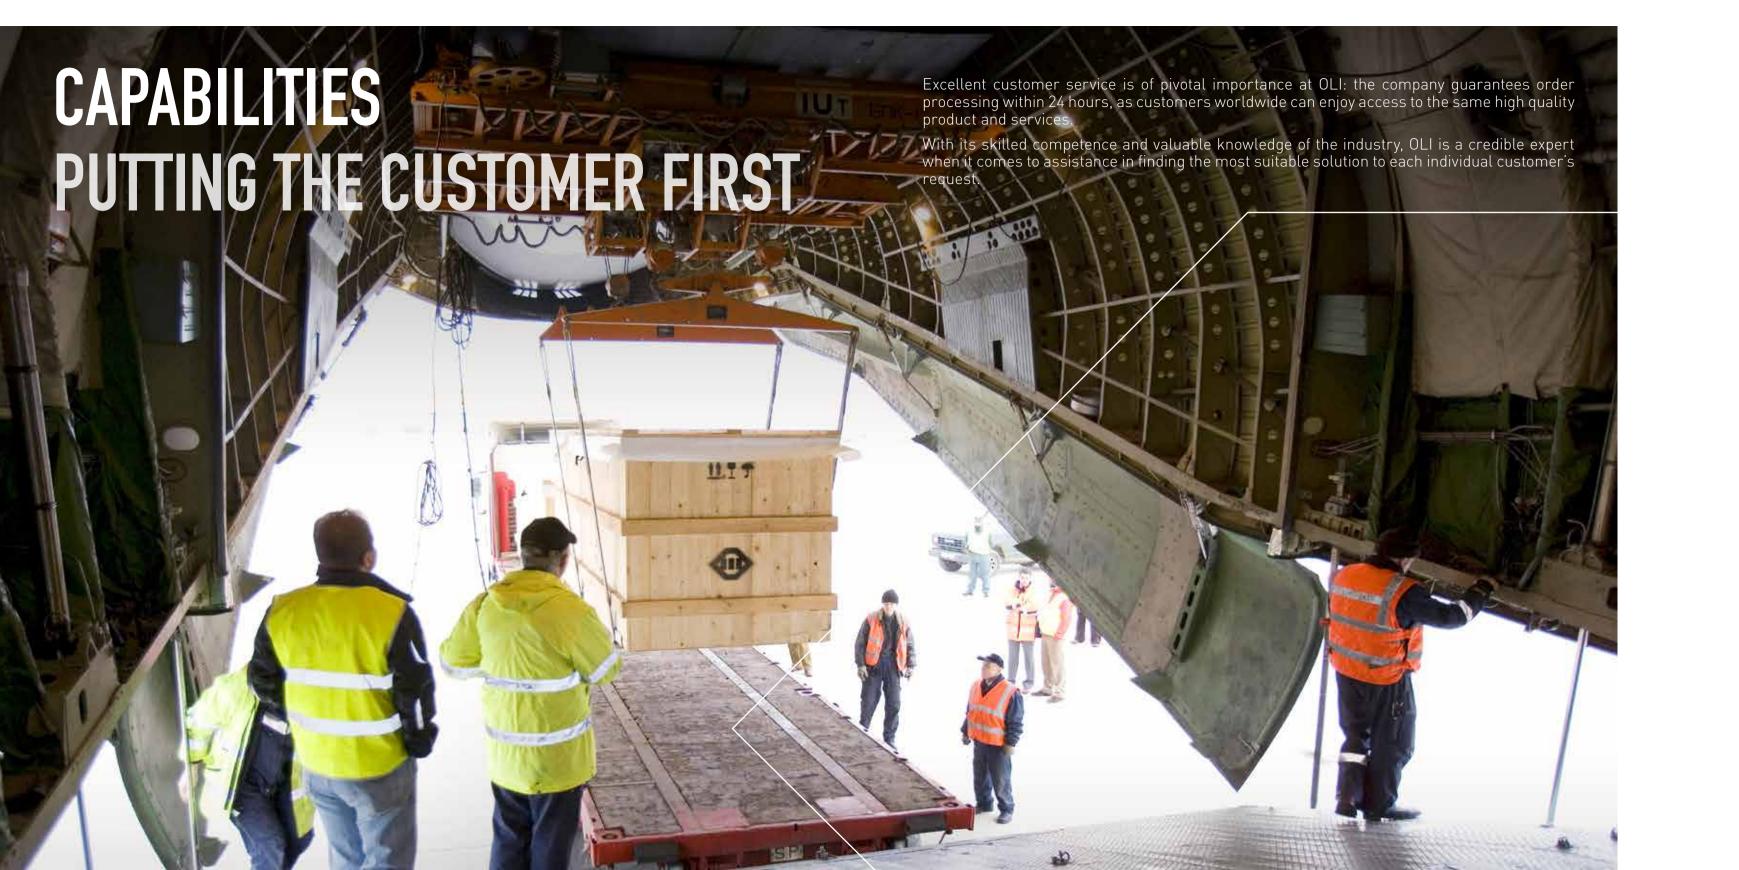

Acquisition of Visam, Italian manufacturer of electric vibrators since 1994. Visam has been dedicated to designing, manufacturing and marketing a full range of vibrating motors with top quality materials and components.

Wolong Group has become OLI's major share holders.

Acquisition of Covibra, Italian manufacturer of high frequency pneumatic vibrators.

All of OLI's wide range of products are market-oriented and can be used in numerous fields of application.

The main focus of OLI's business is electric vibrators, which are designed and produced by the INDUSTRIAL VIBRATOR Division.

The FLOW AIDS Division offers a comprehensive range of electric and pneumatic vibrators to solve any problem of flowability.

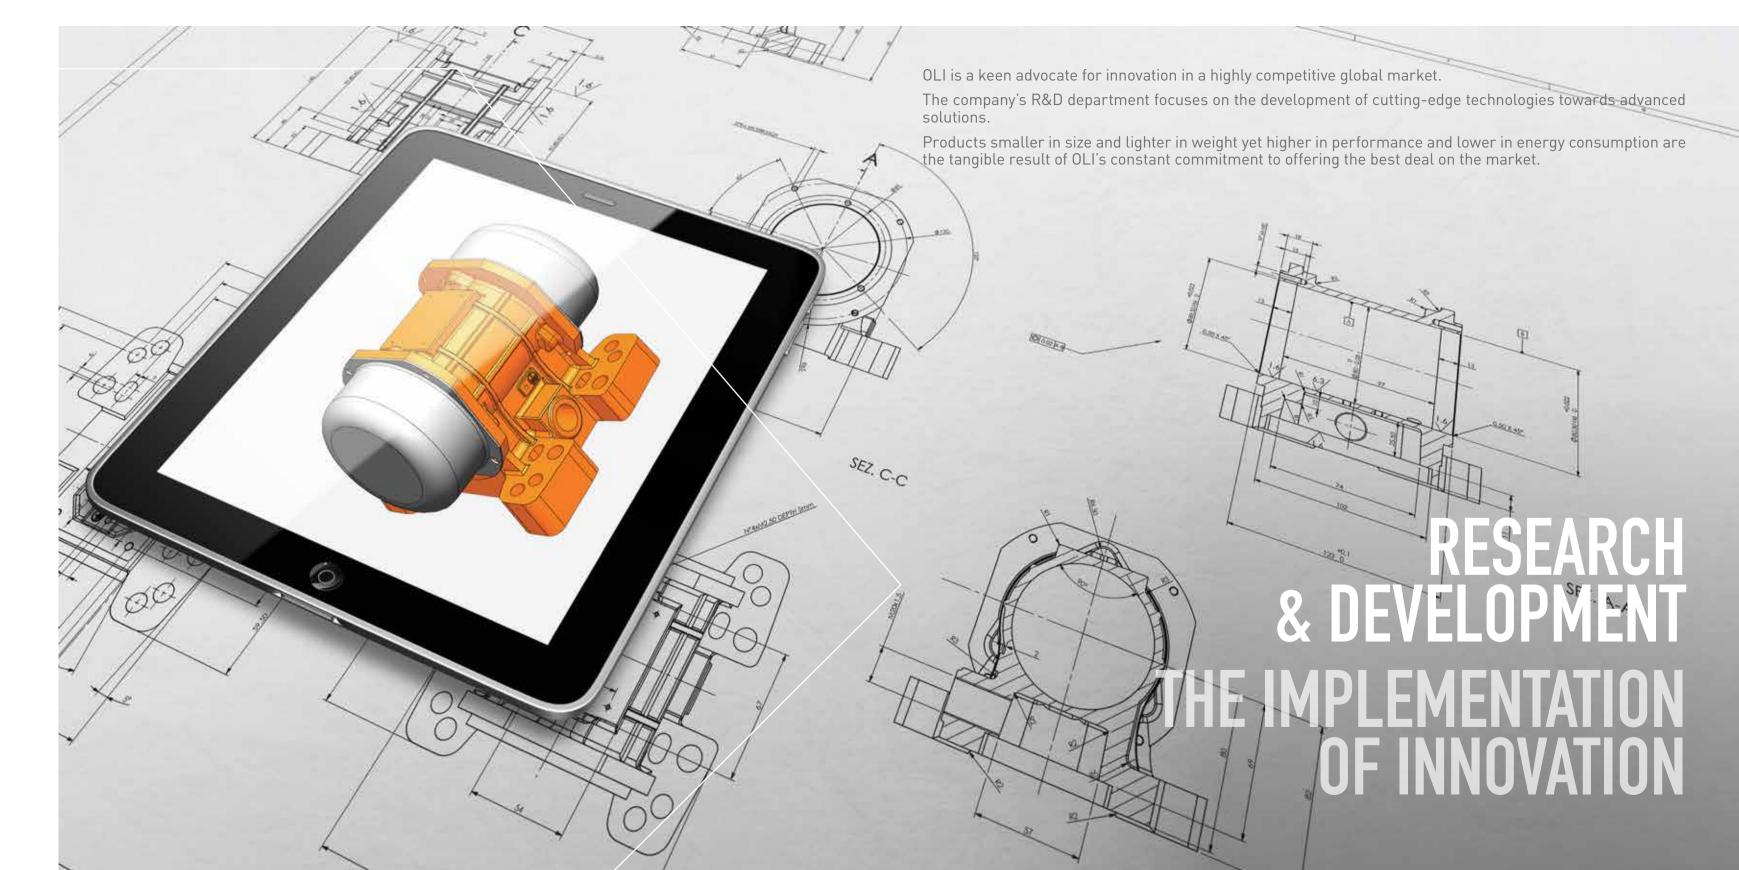

OLI'S CONCRETE VIBRATOR Division includes converters, electric and pneumatic vibrators for reliable and efficient concrete compaction.

OLI's involvement in numerous industries affords the company knowledge of a great variety of applications. The wide range of products, special care about customers' demands and a long-standing experience are all crucial factors in determining the company's success.
